Thank you for sending the annual report for the above Research Database dated 20 January 2021. I will let you know if the Research Ethics Committee request any further information on consideration of the report.

The favourable ethical opinion for the research database continues to apply until 27 December 2023, at which point a fresh application may be made to renew the opinion for a further period of up to 5 years. It is suggested that the fresh application is made 3-6 months before the 5 years expires, to ensure continuous approval for the research database.
